

# Pediatric Anesthesia

The Division of Pediatric Anesthesia comprises 13 faculty, all of whom exclusively perform pediatric cases and are certified in the sub-specialty of Pediatric Anesthesia. Our faculty represent all sub-specialties, including acute and chronic pain, regional anesthesia, procedural sedation, and pediatric cardiac anesthesia. The pediatric cardiac anesthesia subset provides care for children with complex congenital defects and/or with cardiac failure, in the cardiac operating room, pediatric cardiac cath labs, during complex imaging, and when non-cardiac surgery is required. The Department of Anesthesia performs 10,000 anesthetics annually on infants and children. Our program provides an evidence-based, high quality sub-specialty education for anesthesiologists that continually advance the safety and quality of anesthetic care, perioperative management, and alleviation of pain in children and develops future leaders in the field of pediatric anesthesiology.

## About Us

- 190 pediatric beds
- Part of a tertiary and quaternary care academic medical center
- Level 1 Trauma Center and Burn Center for pediatrics
- Level 4 NICU
- 8 pediatric main operating rooms and 6 NORA operating suites
- Comprehensive Pediatric Chronic Pain Clinic
- 28 PICU beds
- 88 NICU beds
- 2 Fellowship positions in Pediatric Anesthesia

## University of Iowa Recreation & Wellness Center

This state-of-the-art facility boasts 20,000 square feet of fitness space over three levels, a 52-and-a-half-foot climbing wall, a 50-meter competitive swimming pool, an 18-foot-deep diving well, a recreation swimming pool, a one-ninth-mile jogging track, two basketball/volleyball courts, one multi-activity gym, a cafe, locker rooms, upgraded club locker rooms, a wellness suite, and the Recreational Services Administrative Suite.

## International Electives Rotation

The Department of Anesthesia Residency program offers international elective rotations, which are intended to give a more global perspective in cultural, social, and economic and political issues of another country that may impact that nation's healthcare system. Learning occurs through both independent study and hands-on experiences. Mentoring by the elective's director or identified faculty helps design the experience to meet the goals and objectives set out in International Elective Policy for Graduate Medical Education.

## Why Iowa?

Iowa City ranks among the best places to live in America. Iowa City, Johnson County, and the state of Iowa all routinely appear on national "best of" lists for housing affordability, low crime rates, excellent schools, economic opportunities, access to world-class health care, and more. And you'll be delighted by all of the things you can do here that you'd expect to find in a much larger city, including enjoying world-class entertainment, culture, outdoor recreation, shopping, dining, spectator sports, and more. And here, the neighborhoods are safe, the people are friendly, and traffic hassles are virtually nonexistent.
